

# California OES Weather Threat Briefing

Friday, November 26, 2021  
9:00 AM PST

**Day 1 (Friday):** Santa Ana winds will gradually weaken this afternoon across southern California, continuing critical fire weather conditions, as well as the potential for some damage and travel impacts. Locally dense fog continues for portions of the Central Valley this morning and is again expected overnight.

# **WEATHER KEY POINTS**

**11/26/21 - 12/02/21**

## **Friday-Thursday**

- Santa Ana winds will gradually subside through Friday for portions of southern California
  - Continued gusty winds, combined with very low humidity levels (2-10% in some locations), will create critical fire weather conditions across the area
  - Wind gusts of 40-50 mph are expected in many prone locations through Friday afternoon
  - Winds will decrease late Friday into the weekend, but elevated fire weather concerns will linger through the weekend
- Other than the Santa Ana winds, generally dry and quiet weather is expected across the state through the next seven days
  - Areas of dense fog may be possible at times, including in the Central Valley, and along the southern coast with weak onshore flow

# CALIFORNIA WEATHER IMPACTS

11/26/21 - 12/02/21
